

Homey Energy Dongle Manual

1. Insert the Homey Energy Dongle into the P1-port of your smart meter.

The P1 port's location varies and may be hidden behind a lid. Check your smart meter's manual if needed.

2. A blue LED indicates the Homey Energy Dongle is ready for setup.

If the LED is off or solid red, the dongle needs extra power. Connect the included USB cable to the dongle and a USB-A adapter, then plug the adapter into a working socket.

3. Downloading the Homey App

Visit <https://setup.homey.app> to download and install the Homey app. Follow the on-screen instructions to create an account and complete the setup process.

Important Safety Information

Handle Homey Energy Dongle with care. It contains sensitive electronic components, and can be damaged, impair functionality, or cause injury if dropped, burned, punctured, crushed, disassembled, or if exposed to excessive heat or liquid or to environments having high concentrations of industrial chemicals, including near evaporating liquified gasses. Don't use a damaged Homey Energy Dongle.

Power Supply

Only use Homey Energy Dongle with an adapter that is compliant with applicable country regulations and safety standards, including the International Standard for Safety of Information Technology Equipment (IEC 62368-1), with a minimal output rating of 5V/0.5A

Some smart meters don't supply power, or don't supply enough power on their P1 port. If the LED on Homey Energy Dongle doesn't turn on, or turns red after connecting it to the P1 port, you'll need to provide power to Homey Energy Dongle through the USB-C port.

Power passthrough to the P1 port only works when the Homey Energy Dongle is powered over the USB-C port. Data passthrough works even if the Homey Energy Dongle is powered by the P1 port.

Medical device interference

Homey Energy Dongle contains components and radios that emit electromagnetic fields. These electromagnetic fields should not, but may possibly interfere with pacemakers, defibrillators, or other medical devices. Maintain a safe distance of separation between your medical device and Homey Energy Dongle. Consult your physician and medical device manufacturer for information specific to your medical device, including radio immunity. Stop using Homey Energy Dongle if you suspect it might be interfering with your medical device.

Support

For support and troubleshooting information, and user discussion boards, go to <https://homey.app/support>.

Disposal and Recycling Information

The symbol above indicates that this product should not be disposed of with household waste. When you decide to dispose of this product, do so in accordance with local environmental laws and guidelines. EU citizens should take the device to a collection point designated by local authorities. Collection and recycling help conserve resources and protect the environment.

Operating Environment

Homey Energy Dongle is designed to operate in normal, in-house conditions. Operating Homey Energy Dongle outside the following ranges may affect performance:

Operating temperature: 5° to 35 °C

Relative humidity: 20% to 75% (noncondensing)

End-User Software License Agreement

Use of Homey constitutes acceptance of the software license terms and EULA found at <https://legal.athom.com>.

Software Updates

Athom shall provide software updates to Homey Energy Dongle for no less than 5 years after release.

Athom Two (2) Years Limited Warranty

The Athom Two-Years Limited Warranty is a voluntary manufacturer's warranty. It provides rights separate to rights provided by consumer law. As such, the Athom Two-Year Limited Warranty benefits are in addition to, and not instead of, rights provided by consumer protection laws. Consumers have the right to choose whether to claim service under this Limited Warranty or under their consumer law rights. *Important:* The

terms and benefits of this Limited Warranty shall not apply to consumer law claims.

Athom, as manufacturer, warrants to the owner of Homey Energy Dongle that the product will be free from defects in materials and workmanship for a period of two (2) years from the date of delivery following the original retail purchase (the "Warranty Period").

If the Homey Energy Dongle fails to conform to this Limited Warranty during the Warranty Period, Athom will, at its sole discretion, either (a) repair or replace the defective Homey Energy Dongle or component; or (b) accept the return of the Homey Energy Dongle and refund the money paid by the original purchaser for Homey Energy Dongle.

Repair or replacement may be made with new or refurbished products or components, at Athom's sole discretion.

If the user's product model or a component incorporated within it is no longer available, Athom may replace it with a similar product with similar functions.

To claim this limited warranty, the owner must contact Athom via the support service, which can be accessed through <https://homey.app/support>.

In some cases, products might be ineligible for this Limited Warranty, like products marked as 'sample', that have been subject to modifications, products which have been used outside of the Athom Terms of Use, or that have experienced mechanical damages or Acts of God. A more extended, full version of this Limited Warranty with all clauses and rights can be found at <https://legal.athom.com>.
